

Straight Profile Hot Food Display

The Woodson straight glass hot food display presents products superbly in addition to all the standard bain marie features.

Having no front stainless steel supports, the straight glass profile display allows for maximum visibility of chosen product.

Fully sealed toughened glass

Multiple element design

Quartz infra-red overhead heat lamps

FEATURES & BENEFITS

- Fully sealed toughened glass used throughout for maximum safety and hygiene
- RADIUS bottom glass channel for ease of cleaning
- Stainless steel construction with dual skin air-insulated bain marie tank for improved safety
- Multiple element design means unit will continue to operate in the event of single element failure
- Supplied with rear sliding glass doors on rollers for council compliance
- Thermostat controls with clear temperature readout
- 15mm drain with downward emptying tap
- Overhead heat lamps wired to maximise light, heat and reliability - with lamp guard
- Full size gastronorm cavity to take choice of 65mm and 100mm pan combinations (pans not included)
- Easy to service via rear access panel
- Identical footprint to other Woodson food display models
- Can be run both wet and dry
- 2 & 3 bay supplied with 10 amp plug & lead
- 4, 5 & 6 bay supplied with 15 amp plug & lead
